Disclaimers and Copyright

Nothing contained in this publication is to be construed as granting any right, by implication or otherwise, for the manufacture, sale, or use in connection with any method, apparatus, or product covered by letters patent, or as insuring anyone against liability for infringement of letters patent.

Efforts have been made to ensure the accuracy and reliability of the data contained in this publication; however, CityGrow Energy Systems Limited makes no representation, warranty, or guarantee in connection with this publication and hereby expressly disclaims any liability or responsibility for loss or damage resulting from its use or from the use of any product or methodology described herein; for any violation of any federal, state, or municipal regulation with which this publication may conflict; or for the infringement of any patent from the use of this publication. Nothing contained in this publication should be viewed as an endorsement by CityGrow Energy Systems Limited of any particular manufacturer's products.

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

IMPORTANT SAFETY INSTRUCTIONS

READ BEFORE OPERATING EQUIPMENT

This product was designed and manufactured to meet strict quality and safety standards.

There are, however, some installation and operation precautions which you should be particularly aware of.

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. If the provided plug does not fit into your outlet, consult an electrician for replacement of the outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

1. Introduction

Thank you for choosing CityGrow's product. CG401S5-FCU Fan Coil Unit (FCU) Controller is highly-functional, user-friendly and installation-friendly. The CG401S5-FCU and CG401S5V1-FCU are specially designed for featuring FCU control in CityGrow's automation system.

Description

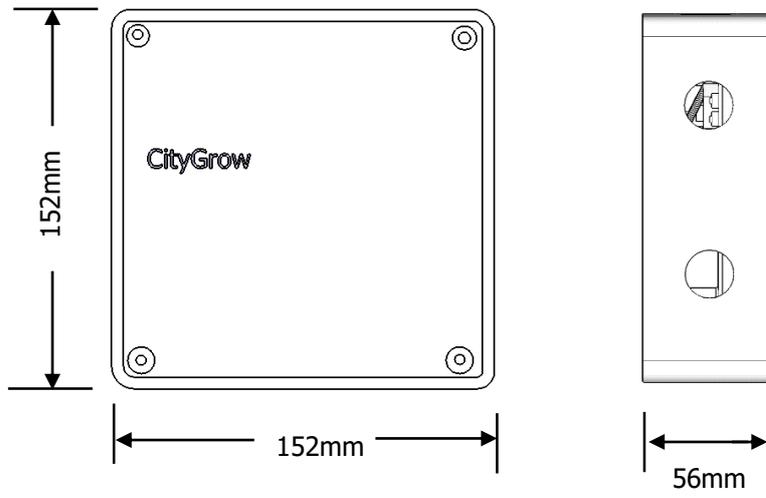

1. ZigBee wireless remote control.
2. Based on IEEE 802.15.4.
3. 2.4GHz radio frequency.
4. Inbuilt 5 independent contacts for High/Mid/Low and Cool/Heat control.
5. CG401S5-FCU, without sensor, compatible with CG100HTH Thermostat.
6. CG401S5V1-FCU inbuilt temperature sensor, compatible with CG100HTHV1 Thermostat.
7. Openings for direct insertion of conduits, ideal for on-site installation.
8. Can include FCU control function in scene control.
9. Enclosure by BS4607 cabinet.
10. With CG102BS-R Base Station, all devices support iOS/Android App control.
11. Powered by CG101AD Mini Power Supply. (Included)
12. Easy to install.

2. Understanding the product

Pin number	Description
1, 2	Relay output for HEAT
3, 4	Relay output for COOL
5, 6	Relay output for FAN SPEED LOW
7,8	NC
9,10	Relay output for FAN SPEED MID
11,12	Relay output for FAN SPEED HIGH

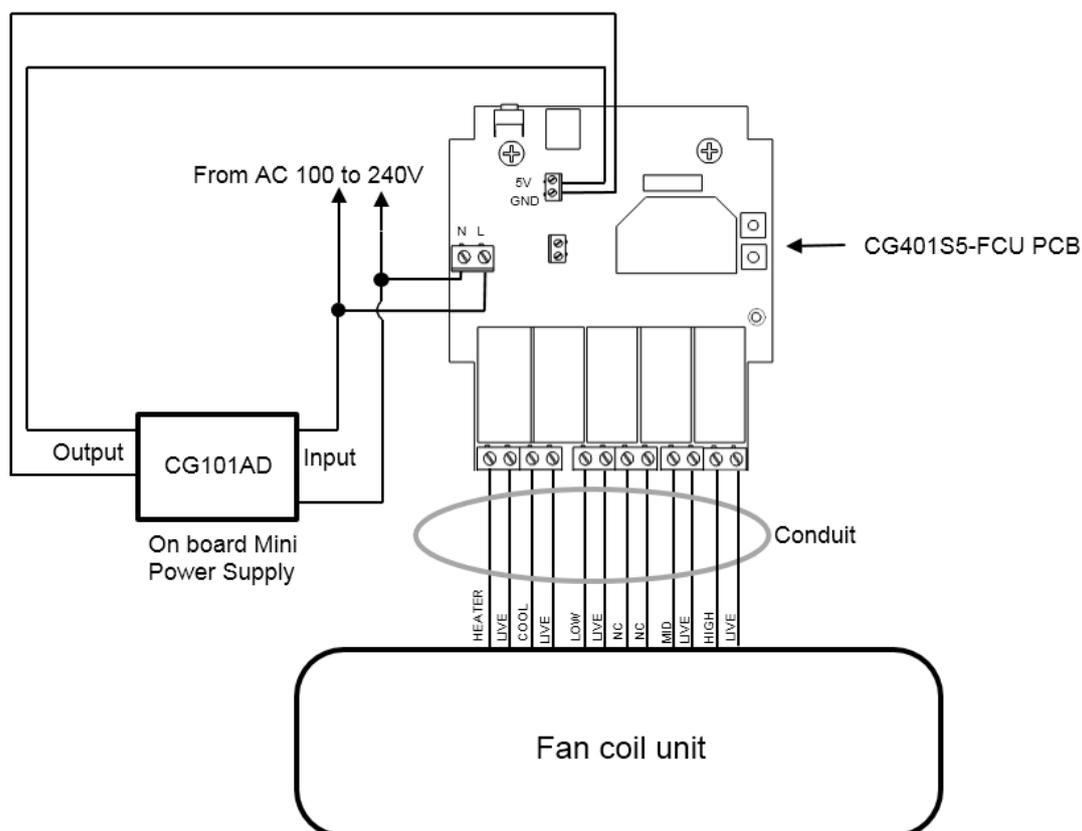

3. Dimensions

4. Wiring

Before getting started

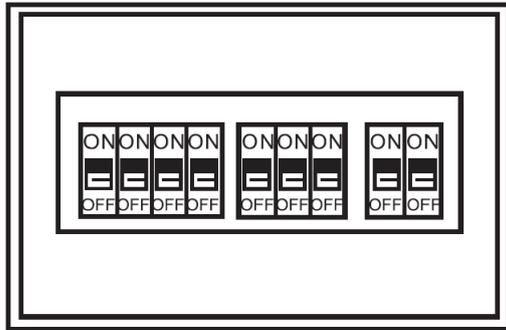

- ⚠️ **WARNING!** It must be installed by a qualified electrician in accordance with all applicable regulations and building codes. Improper wiring can result in personal injury or damage to control units or other equipment. Always turn off circuit breaker or remove main fuse from power line before doing any work. To avoid overheating and possible damage to equipment.
- ⚠️ **WARNING!** Do not operate when any lamps removed or burned out; replace any burned out lamps immediately; use only transformers that incorporate thermal protection or fused primary windings. ! This product is designed for residential and commercial use, for indoor use only.
- ⚠️ **WARNING!** Install in accordance to all national and local electrical codes.
- ⚠️ **IMPORTANT!** CityGrow® is not liable for any damage incurred with the misuse of the product.
- ⚠️ **IMPORTANT!** Pre-setup can only be done by a professional technician or manufacturer agent.

5. Installation

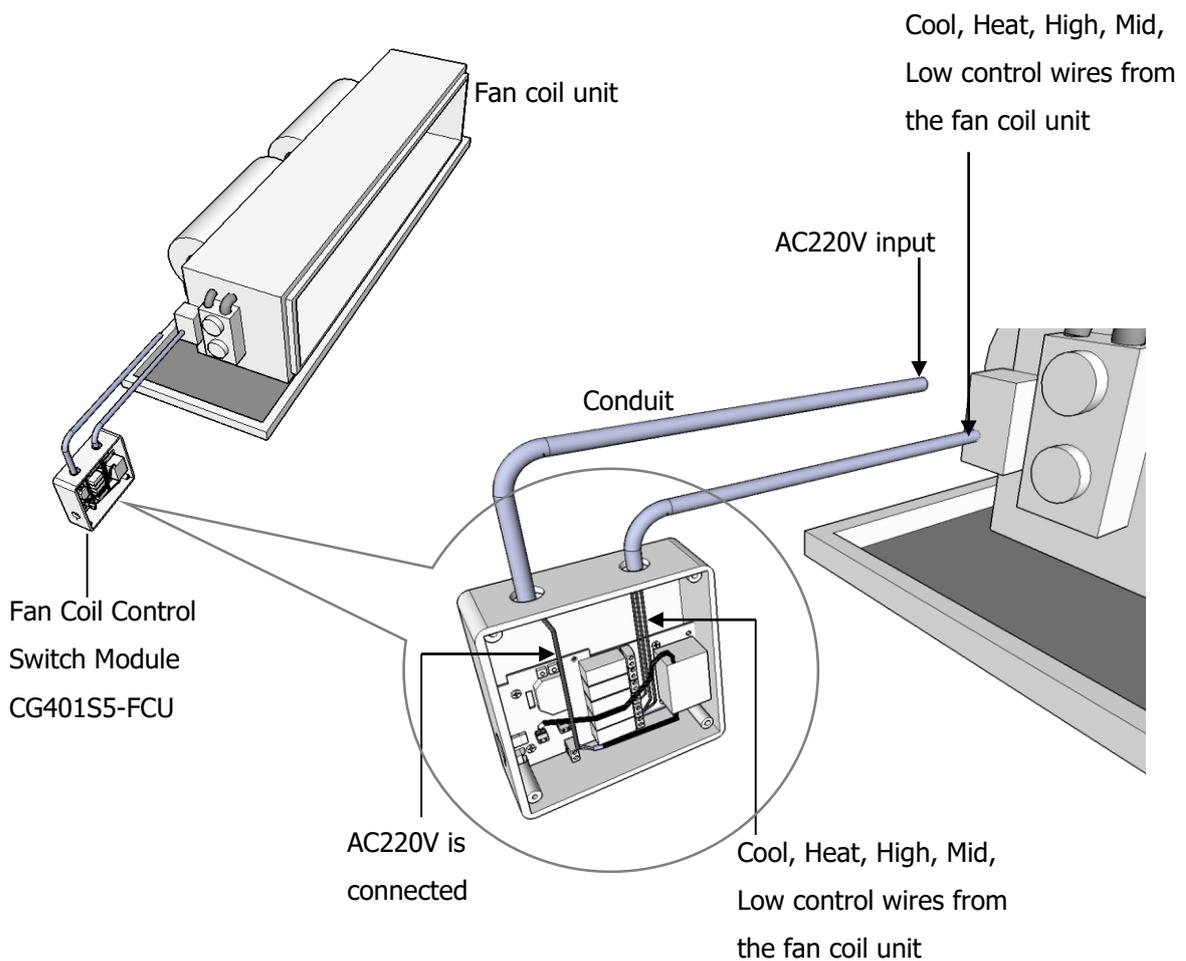

Please follow the instructions to install the product.

STEP 1: IMPORTANT! Turn off main power at the main switch board.

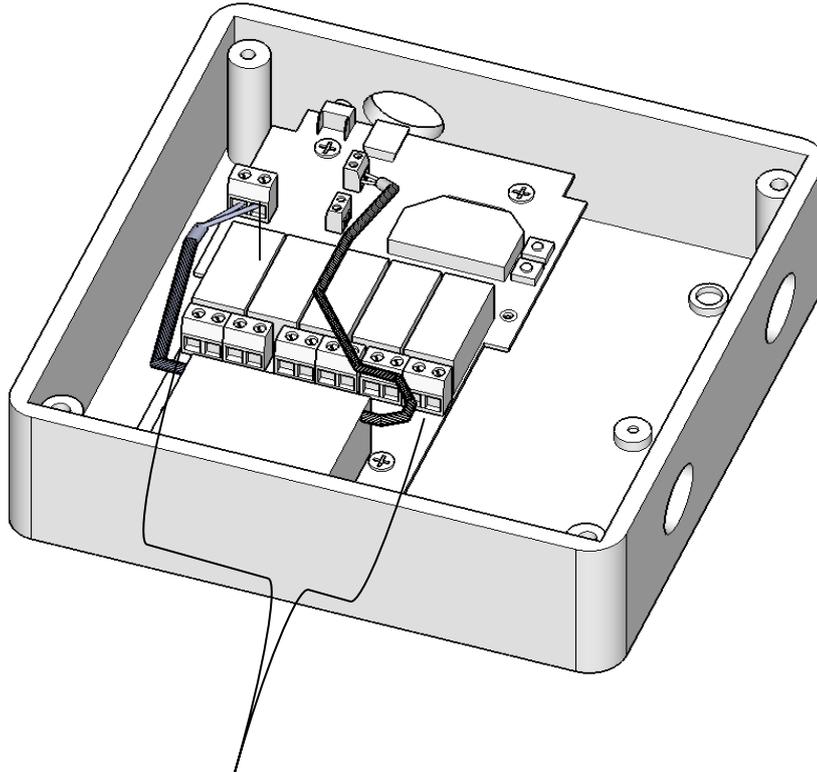

STEP 2: Select a location for installation which is nearby the fan coil unit (FCU).

Mount the CG401S5-FCU on the location and route the conduits.

STEP 3: Connect the wires from the FCU to the CG401S5-FCU following the below diagram.

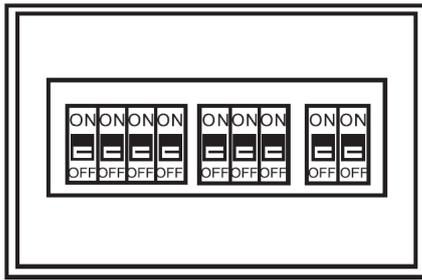

Connection terminals to fan coil

Pin number	Description
1, 2	Relay output for HEAT
3, 4	Relay output for COOL
5, 6	Relay output for FAN SPEED LOW
7,8	NC
9,10	Relay output for FAN SPEED MID
11,12	Relay output for FAN SPEED HIGH

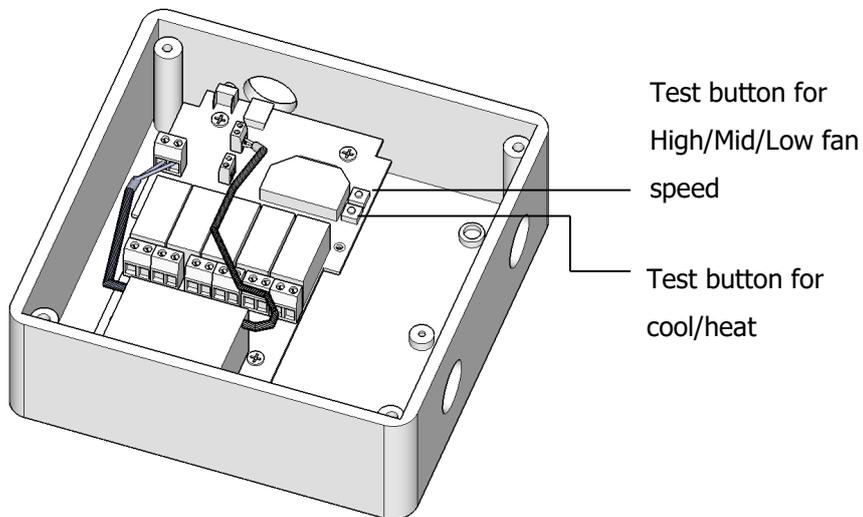

Step 4: Fasten the screws of all wire connectors and secure the in and out wires properly.

Place the wire cover back to the module.

Step 5: Turn the main power on at the main switch board again.

Step 6: The module is now powered up. Pressing the test button to test the module.

Step 7: Place the top cover back to the module and fasten the screws to complete the installation.

6. Application notes

CG401S5-FCU is a wireless fan coil unit controller which is able to receive signal wirelessly from CityGrow's control plate products or thermostat. Long distance cable wiring is not required.

6.1. Control a single FCU with a CG100HTH Thermostat

The signal will be sent wirelessly to the CG401S5-FCU, to control the fan speed (high, low or mid), ON/OFF and Cool/Heat mode.

CG100HTH
Thermostat

CG401S5-FCU
Fan Coil Control Switch Module

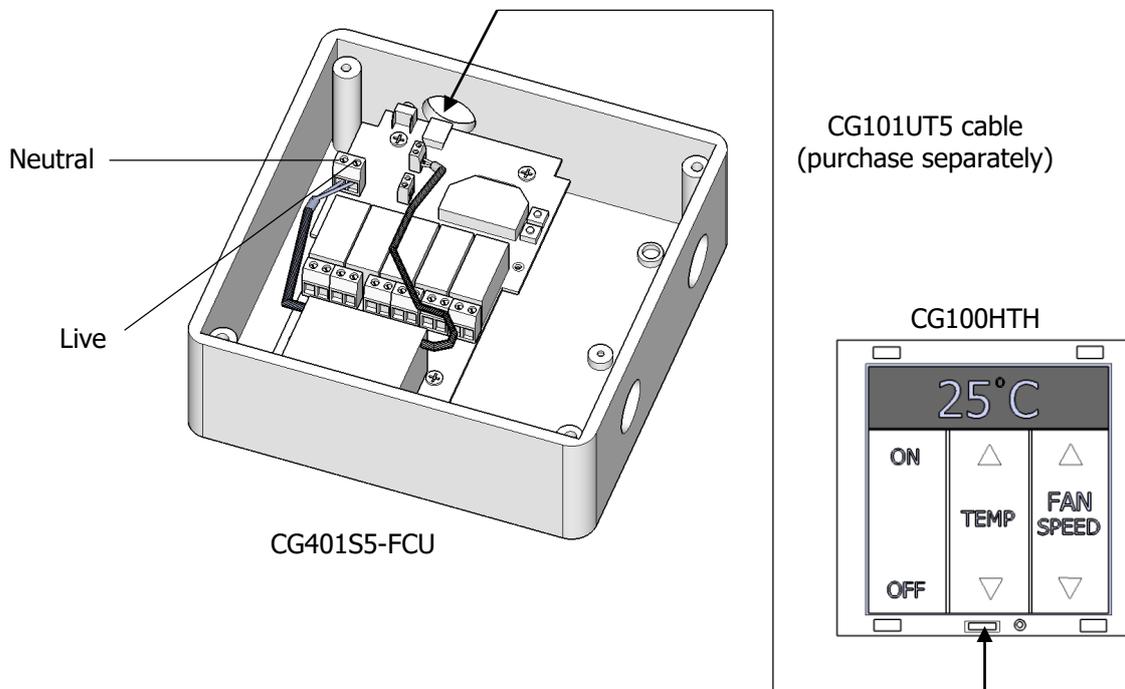

Option A: Control CG401S5-FCU through inbuilt temperature sensor in CG100HTH Thermostat

Option B: Control with CG100HTHV1 Thermostat through an inbuilt temperature sensor inside the CG401S5V1-FCU

6.1.1. Pairing procedures

Following the instructions below to pair the CG100HTH Thermostat and CG401S5-FCU Fan Coil Unit (FCU) Controller.

1. Power-up the CG401S5-FCU by connecting Live and Neutral to the corresponding terminals. Connect the CG101UT5 cable from CG401S5-FCU to CG100HTH. Please note that you do not need to connect power to CG100HTH, as the CG101UT5 cable will supply power to CG100HTH from CG401S5-FCU.

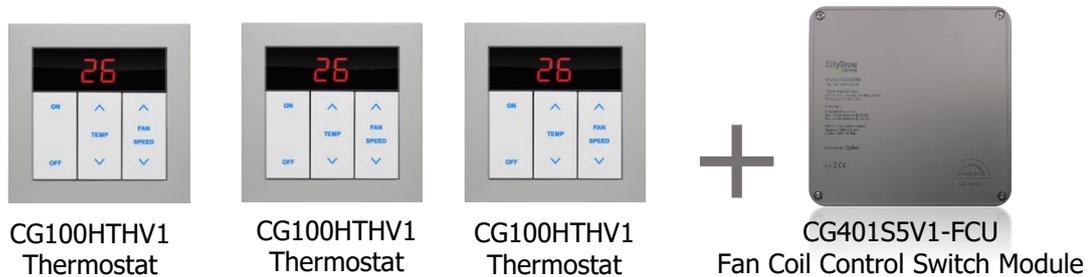

2. Hold the "OFF" button of the CG100HTH.
3. Keep holding the "OFF" button, and then press and release the reset button of the CG100HTH.
4. Keep holding the "OFF" button until the 7-segment LED display of the CG100HTH shows "ok", and that means the pairing process is completed.
5. If the display does not show "ok" within 2 seconds, which means the pair process is failed. Please check the power of the CG401S5-FCU and check the CG101UT5 cable. Repeat step 1 – 5 to retry again.

6.2. Control a single FCU with multiple CG100HTHV1 Thermostats

The signal will be sent wirelessly to the CG401S5V1-FCU, to control the fan speed (high, low or mid), ON/OFF and Cool/Heat mode.

Notes: A single CG401S5-FCU can be controlled by up to 8 units of CG100HTH Thermostat.

To control the Fan Coil Unit (FCU) Controller with multiple CG100HTHV1 Thermostats, ONLY CG401S5V1-FCU Fan Coil Unit (FCU) Controller with inbuilt temperature sensor is applicable.

6.2.1. Pairing procedures

Referring to section 6.1.1, repeat step 1 to step 5 to bind the rest of the CG100HTHV1 Thermostat.

6.3. Control multiple FCUs with a single CG100HTH Thermostat

The signal will be sent wirelessly to the CG401S5-FCU, to control the fan speed (high, low or mid), ON/OFF and Cool/Heat mode.

Option A: Control CG401S5-FCU through inbuilt temperature sensor in CG100HTH Thermostat

Option B: Control with CG100HTHV1 Thermostat through an inbuilt temperature sensor inside the CG401S5V1-FCU

6.3.1. Pairing procedures

Referring to section 6.1.1, repeat step 1 to step 5 to bind the rest of the CG401S5-FCU.

7. Adding the product to your Home Wireless ZigBee Network

<p>The diagram illustrates the connection process in three steps. Step 1 shows a cable being plugged into the USB program port of a device and the mini USB end of the CG101UTC cable. Step 2 shows the cable being plugged into the USB port of a laptop.</p>	<p>STEP 1</p> <p>Plug the CG101UTU cable into the USB program port of the product, and then plug the other end of the CG101UTU cable into the mini USB end of the CG101UTC cable.</p> <p>STEP 2</p> <p>Plug the CG101UTC cable into the USB port of a PC that is installed with CityGrow's HomeNET Planner 2 Software.</p> <p>STEP 3</p> <p>Refer to the user manual of "HomeNET Planner 2" Software to program and set the address of the product.</p>

8. Specification

Item	Description
Power supply	100-240VAC, 50/60Hz @ 80mA
Loads	5 dry contacts Maximum 2A per channel @24VDC, or Maximum 4A per channel @240VAC
RF frequency	2.4GHZ
Remote control distance (M, line of sight)	100M
Operating temperature	0°C to 50°C
Operating humidity	5% to 95% non-condensing
Unit Dimension L x W x D (mm)	152 x 152 x 56mm
Storage	-20°C to 70°C
