

Model No.	Image	Description	Features	Specification
CG504EMU	 Retail Price: US\$577.00	<u>Energy Manager (9 channels)</u>	1. Single phase or three phase. 2. Instance power. KWH information. 3. Stand alone device power audit 4. Current detection 5. Voltage detection 6. Data logger 7. Real time clock 8. Internet connection 9. Ethernet connection	Operating voltage: DC5V, 3A Dimension L X W x D: 130 x 131 x 40 mm
CT30A	 Retail Price: US\$30.00	<u>30A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 30A	
CT60A	 Retail Price: US\$32.00	<u>60A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 60A	
CT100A	 Retail Price: US\$51.00	<u>100A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 100A	
CT200A	 Retail Price: US\$109.00	<u>200A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 200A	
CT400A	 Retail Price: US\$190.00	<u>400A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 400A	
CT600A	 Retail Price: US\$331.00	<u>600A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 800A	
CT800A	 Retail Price: US\$385.00	<u>800A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 800A	
CT1000A	 Retail Price: US\$462.00	<u>1000A Current transformer</u>	1. Quick and easy installation without disconnecting cables during installation. 2. primary current up to 1000A
